SANDESH PATIL

Quality Assurance Engineer

sandeshmpatil26@gmail.com

+91-9075189345

Summary

2.5 years of experience as a QA Engineer in Web, Mobile applications. An accomplished software tester in delivering quality products and meeting customer expectations by performing effective testing. Hands-on on experience in the development of well-structured Manual test cases based on functional requirements.
Strong QA experience with Agile Environment. Skilled at writing Test Plan, Test Strategy Document, Test cases from specifications, extremely effective at Troubleshooting and problem solving. Excel at interacting positively with customer support analysts and development programmers. Patient, dependable, quick learner who is dedicated to meeting customer's requirements. Skilled at Microsoft Excel in generating and maintaining reports and various Testing matrices like Requirement Traceability Matrix and other artifacts.

Highlights

- Hands-on experience on Proficient in creating detailed test cases, executing thorough testing, and reporting defects.
- Exposure to various testing types - Functional Testing, Regression Testing, Re-Testing, Sanity testing, and ad-hoc testing on different testing environments
- Conducted thorough Compatibility Testing on web-based applications, ensuring seamless performance across different browsers and operating systems.
- Analyzing business specification documents, designing test cases and executing test cases
- Proficient in the Defect Life Cycle with a track record of creating detailed Defect Reports, ensuring accurate communication and resolution of issues.
- Coordinate and communicate with the BA team to better understand functional requirements for developing quality test cases
- Participate in scrum meetings to discuss project progress reports every day.
- Self-Motivated, Pro-Active and quick learner of new concepts and technologies
- Committed to delivering high-quality results, ensuring the reliability and functionality of software through meticulous manual testing.
- Collaborated with interdisciplinary teams to guarantee flawless integration of hardware and software components.
- Conducted compatibility testing across multiple devices and platforms, ensuring consistent performance.
- Hand-on experience on proficient in creating detailed test cases, executing thorough testing and reporting defects.
- Performed regression testing after bug fixes and code changes to ensure the stability of application.

Technical Skills

QA Skills	Requirement Understanding & Finalization Acceptance Criteria Creation & Requirement Traceability Test Case Creation Manual & Automation testing End-to-end testing User acceptance Testing. Mobile Application Testing Issue creation & tracking Troubleshooting and debugging Test Summary Report preparation
Testing Techniques	Functional Testing, Smoke testing, Regression Testing, Sanity Testing, Usability Testing, GUI Testing
Bug Tracking Tools	Jira, Azure DevOps
Programming Language	Java
Project Management Tool	Jira, Azure DevOps
Software Methodologies	SDLC/STLC, Agile Methodology
Operating Systems	Windows XP, Windows 8.1, Windows 10, iOS operating system

Professional Experience

GSC Technologies Limited, Ahmedabad from February 2024 up to till date.

Atos Syntel, Pune from April 2022 to August 2023.

RESPONSIBILITIES:

- Test Case Design for the Manual.
- Test Case Verification.
- Reporting Bugs.
- Creating and Maintaining Enhancements/Improvement sheets.
- Perform Ad hoc testing and Regression Testing on every new build.
- Tracked the defects and tasks using MS Excel and sharing with the Team.
- Perform formal execution of all finalized Test cases in the Verification phase.
- Coordinating with Developers to be in sync with new developments.
- Prepared User manuals
- Client Communication
- Prepare the daily, weekly and sprint wise reports.

1. Standard Life Insurance:
- Connected SLI project, conducted comprehensive manual testing procedures for insurance-related software applications, ensuring adherence to project requirements and industry standards. Executed test cases, identified defects, and collaborated with cross-functional teams to resolve issues, contributing significantly to the enhancement of product quality and functionality. Played a pivotal role in ensuring compliance with regulatory standards and specifications within the insurance domain, providing thorough testing documentation and reports.

- Designed and executed detailed test cases to validate device interactions, app synchronization, and user experience across various models. Collaborated closely with development teams to ensure seamless connectivity and data exchange between the devices and the mobile app. Conducted rigorous compatibility testing on multiple device versions and screen sizes to guarantee consistent performance. Verified proper implementation of remote-control functionality, including navigation, playback controls, and content selection.

2. Clinical Trial Health Domain:

- **Test Planning & Execution:** Developed and executed comprehensive test plans for clinical trial software, including functional, regression, integration, and user acceptance testing (UAT) to ensure the accuracy of clinical trial data collection, reporting, and analysis.
- **Defect Management:** Identified, logged, and tracked defects using tools like Jira and Quality Center, collaborating with developers and project teams to prioritize and resolve issues effectively.
- **Cross-functional Collaboration:** Worked closely with clinical research teams, developers, and product managers to understand business requirements, define test scenarios, and provide feedback on product functionality and usability
- **Documentation & Reporting:** Created detailed test cases, test scripts, and test data to ensure traceability and comprehensive test coverage. Provided regular status reports, test metrics, and defect analysis to stakeholders.

Educational Qualification

Bachelor of Science.
North Maharashtra University.
CGPA 9.14/10.

Personal Details

Date of Birth: 11th January 2000
Language Proficiency: English, Hindi, Marathi.
